

SYSTEM CONFIGURATION TEAM MEETING
September 7, 2017
Thursday, 1 to 4 pm
1st Floor Conference Room (Portland NMFS Building)
Conference Call-in line (503) 326-7669

Agenda

- 1. Edits to the July 20, 2017, draft meeting notes.**
- 2. Review/discuss updates to the FY 2018 CRFM project list & score the previously deferred line items.**
- 3. Discuss line items that SCT deferred scoring at the last meeting, requiring further information, including:**
 - A) Adult & Juvenile migration evaluations during spill to the gas cap operations (update from SRWG & COE).**
 - B) Turbine Survival Program - what is included?**
 - C) BON/TDA/JDA Forebay temperature monitoring – what will be the monitoring capability in FY18?**
 - D) Little Goose adult ladder temperature mitigation – how will this be evaluated?**
 - E) Lower Granite spillway PIT detection, construction & monitoring, including construction and post construction evaluation costs.**
 - F) Lower Granite surface passage modifications – report from FFDRWG to clarify the COE plan.**
 - G) Lower Granite juvenile performance and bypass post construction evaluations – progress report from SRWG.**
 - H) Lower Monumental and Lower Granite SOG vs Prog – clarify the cost estimates.**
 - I) Smolt Susceptibility to avian predation – clarify the scope.**
- 4. Any additional updates from FFERWG & SRWG meetings which were not covered above, and future meeting dates.**
- 5. Progress with ERDC Hydraulic Modeling investigation of project operations for spill cap.**
- 6. Next SCT meeting is scheduled for September 21, 2017, in two weeks, which may be too soon, consider waiting until October 19.**
